

# Audit & Assessment Support

Be audit-ready - and pass with confidence.

## Your challenge

Many organizations face challenges in demonstrating compliance due to inconsistent documentation, missing evidence, and unclear safety or security arguments - leading to audit findings, delays, and uncertainty in certification.

## Our solution

Our Audit & Assessment Support ensures that your processes and documentation artifacts are fully prepared for external inspection.

**Successful audits don't happen by chance. Talk to us.**

# Our contribution to your success story

## Audit Readiness Assessment

- Evaluation of current work products and processes
- Identification of gaps, inconsistencies, and risks

## Work Product Review & Improvement

- Review of safety and cybersecurity documentation
- Identification of missing or inconsistent artifacts
- Support in closing gaps and improving quality

## Audit Preparation

- Preparation of audit strategy and structure
- Definition of argumentation and evidence
- Coaching of teams and key stakeholders

## Audit Support

- Interface with assessors and auditors
- Real-time clarification of findings and questions

## Findings Resolution

- Analysis of audit findings
- Definition and tracking of corrective actions
- Support until closure

## Certification Strategy (optional)

- Definition of certification approach
- Alignment with standards and assessors
- Planning of certification activities

## Deliverables

- Audit readiness assessment report
- Reviewed and improved work products
- Audit strategy and preparation materials
- Support during audit execution
- Corrective action plan and tracking

## Your benefits

- Reduce risk of audit failure
- Avoid unexpected findings and delays
- Ensure consistent and high-quality documentation
- Increase confidence in front of auditors and assessors
- Pass external inspection faster and more efficiently

**Turn risk into audit confidence.**
